UX/ UI PROJECTS

VELA

CareerFoundry | July 2023 - December 2023

- **Challenge:** Develop a user-centric applications with real-time conditions, personalized alerts, and global surf spot exploration.
- **Actions:** Conducted user research, defined personas, and applied design thinking for an intuitive UX/UI. Iteratively tested, gathered user feedback, and refined through development.
- **Results:** Created an intuitive, surf forecasting prototype delivering a personalized and engaging surf experience.

Wagalytics

Freelance | October 2023 - January 2024

- **Challenge:** Creating an engaging and user-friendly application that combines pet tracking, social interaction, and gamification elements.
- **Actions:** Extensive research to understand relative user preferences and behaviors. Iterative design processes to create a feature rich app including Pet Counter, Social interaction features, and challenges to enhance user experience.
- **Results:** Providing a comprehensive solution for dog enthusiasts to track, share and celebrate their interactions with dogs.
